Personal Summary

A dedicated and skilled software professional with a strong academic foundation, holding an MCA from Shivaji University, Kolhapur, and a BCA from Kusumtai Rajarambapu Patil Kanya Mahavidyalaya, Islampur. Proficient in a diverse range of programming languages, including Dot Net, C, C++, Java, PHP, and SQL. Experienced in web technologies such as HTML, CSS, JavaScript, and Web API development, complemented by a solid understanding of database management using SQL and MySQL. Adept at developing dynamic and efficient software solutions, with a passion for problem-solving and continuous learning in the ever-evolving tech industry.

Core Technical Skills

- **Languages:** Dot Net, C, C++, Java, PHP, SQL
 - **Web Technologies:** HTML, CSS, JavaScript, ASP.Net, ASP MVC, Web API
 - **Database Management:** SQL, MySql
 - **Tools:** VS Code, Visual Studio 2022, Microsoft SQL Server Management Studio
-

Education

- **MCA in Computer Science**
Shivaji university, Kolhapur (2021-2023) – 69%
 - **Bachelor Of Computer Applications**
Kusmtai Rajarambapu Patil Kanya Mahavidyaly Islampur (2019 – 2021) – 85%
 - **12th Grade**
New English School Shrala (2019) – 50%
 - **10th Grade**
Kanya Mahavidyaly, Mangle (2016) – 65.00%
-

Notable Projects

- **Online Job Portal**

Online Job Portal

Technologies Used: ASP.NET MVC, Entity Framework (Code-First Approach), HTML, CSS, JavaScript, Bootstrap

Developed a dynamic and user-friendly Online Job Portal to facilitate seamless interaction between job seekers and employers.

- **Key Features:**
 - User registration and authentication for job seekers and employers.
 - Job posting and application functionality.
 - Search and filtering options for jobs based on categories, locations, and keywords.
 - Responsive design using Bootstrap for optimal user experience across devices.
 - Integrated Entity Framework Code-First approach for efficient database management and schema updates.
 - Frontend designed with HTML, CSS, and JavaScript to ensure an intuitive and engaging user interface.

- **Outcome:** Successfully created a platform that streamlines the recruitment process, enhancing usability and accessibility for end users.

Supermarket Management System

Technologies Used: ADO.NET, C#, ASP.NET, SQL Server, HTML, CSS

- **Key Features:**
 - Inventory management, including adding, updating, and tracking stock levels.
 - Sales processing module for billing and receipt generation.
 - Integration of ADO.NET for efficient data access and manipulation with SQL Server.
 - **Outcome:** Successfully delivered a solution that enhanced operational efficiency, reduced manual workload, and improved overall store management.
-

Certifications & Achievements

- Certification in Dot Net
 - **Certification in HTML (Attend in Udemy)**
 - **Certification in core Java (Attend in Udemy)**
-
